

Individual Memberships

Most Global Washington members are institutions, but individuals are also eligible for membership! Individual members are typically supporters, philanthropists, or consultants with a strong interest in global development.

Benefits of individual membership include:

- 4 free event registrations per year (up to \$30 value each)
- Member discounts at most events and the Global Washington annual conference
- Submit blogs for posting on GW's website

Note that an individual membership is the same price as an advocate level institutional membership. Individuals with relevant organizational affiliations or businesses may get the most value out of an institutional rather than individual membership.
