

GLOBALWA

THE GLOBALWA ADVANTAGE

Since its founding in 2008, Global Washington (GlobalWA) has built a thriving, multi-sectoral network to connect, promote, and strengthen the global development community which includes nonprofits, foundations, corporations, and educational institutions supporting positive change through their programs in low and middle income countries. In response to member feedback and their evolving needs, we have created multiple programs and events, several of which you can review below.

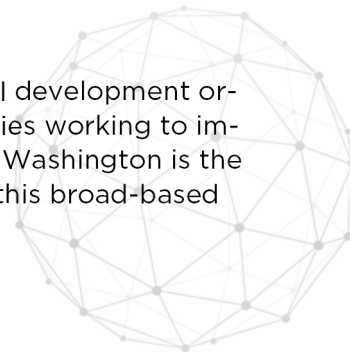

In our community, we have 150 members in our Member Network, and also over 20,000 followers on social and our newsletter. In early 2023, we initiated a new Strategic Plan to further build connection and community through opportunities for co-creation, partnership development, and interactive learning.

HOW TO GET INVOLVED

Member Network

Washington state has a powerful concentration of international development organizations, philanthropists, academic institutions and companies working to improve the lives of people living in developing countries. Global Washington is the only membership association in the state that brings together this broad-based network to advance the work of our members.
